

MEETINGS CALENDAR

January 21-23, 2016 – Gastrointestinal Cancers Symposium *Insight on Novel Mechanisms and Precision Care*

Moscone West Building, San Francisco, CA. The Gastrointestinal (GI) Cancers Symposium is a specialized oncology event designed to provide scientific and educational content for members of the GI cancer care and research community. This three-day meeting encompasses the latest science in cancers of the esophagus and stomach; the pancreas, small bowel, and hepatobiliary tract; and the colon, rectum, and anus. This year's Symposium will offer new breakout sessions covering cutting-edge and controversial topics, a networking luncheon for early-career oncologists, and the opportunity to view and discuss selected posters with respected faculty members during poster walks. For more information, visit: gicasym.org

January 28-31, 2016 – 23rd International Symposium on Pancreatic & Biliary Endoscopy

Cedars Sinai Medical Center, Harvey Morse Conference Center, Los Angeles, CA. The Cedars-Sinai 23rd International Symposium on Pancreatic and Biliary Endoscopy teaching conference will be held in cooperation with nine major endoscopy centers in North America, Europe, Asia and Australia. This unique course offers an intensive and comprehensive review of pancreatic and biliary endoscopy for gastroenterologists, gastroenterology fellows and gastroenterology nurses. Symposium planners invite expert faculty to give state-of-the-art lectures and perform ERCP and EUS procedures to demonstrate technique and technology for the benefit of participants watching the live feed in the Cedars-Sinai auditorium. 27 AMA PRA Category 1 Credits™ maximum. For more information, visit: regonline.com/builder/site/Default.aspx?EventID=1763364

February 6, 2016

4th Annual Advances in Gastroenterology and Hepatology

Hyatt Regency, La Jolla, CA. This interactive one-day activity will present cutting edge new opportunities for improving assessment and management of patients with gastrointestinal conditions, and place recent advances in context of current assessment and management paradigms. Specific topics that will be covered include:

- Barrett's Esophagus
- Hereditary Colorectal Cancer Syndromes
- Capsule Endoscopy
- Irritable Bowel Syndrome
- Gluten Sensitivity and Celiac Disease
- Screening and Surveillance of Hepatocellular Carcinoma
- Indications for Liver Transplantation
- Novel approaches to managing Hepatitis C, Crohn's Disease, and Ulcerative Colitis

The format includes keynote presentations by internationally known guest speakers, short, evidence-based updates by UC San Diego faculty, and interactive presentations and panel discussions of challenging cases. For more information, visit: cme.ucsd.edu/GI
